“The **TED Video Wall** consist(ed) of over 13-hundred mind-blowing video talks of speakers from the **TED.com** web site, embedded in a single 3D side-scrolling interface.”

- Video Source: YouTube
- Based on **Cooliris** technology \*
- Inspired by **The Whole Earth Catalog**
- Created 2009

The "TED Video Wall" will be one of the first of 100+ pages in the upcoming "**Whole Earth Video Wall**", currently under development.

Designed to be the "**21st century equivalent of the Whole Earth Catalog**", it consists of specifically selected categories of YouTube videos. The ultimate purpose of the Whole Earth Video Wall is to provide access to tools for creating sustainable, planet-friendly lifestyles for future and present inhabitants of Spaceship Earth.
